

About This Activity

This activity worksheet is designed for the first year piano student. It continues to drill and practice note naming skills as it introduces the musical interval. This activity worksheet is most effective if used in sequence, following the introduction of basic symbols (staff, treble clef and bass clef) and note names.

Intervals! Piano Theory Worksheet Two/3rds

Intervals!

Now that you understand the basic stuff about intervals, and have successfully completed the first worksheet that introduced seconds (2nds), let's take a look at thirds (3rds). Thirds always move from a line note to a line note, or a space note to a space note.

3rd Up 3rd Up 3rd Down 3rd Down

In the following activity you will write thirds up and down from the printed note in the treble and bass clef. Then label the two notes with their correct alphabet letter.

3rds Up

3rds Down
